

## Pre-Test Questionnaire

1. Have you ever been camping or hiking? Yes
2. Do you enjoy the outdoors? Yes
3. How many times in the last 6 months have you been on an outdoor adventure (e.g. hiking, camping, etc.)? Maybe once, it has been too cold.
4. Can you identify any local plants or animals? Yes
5. If you had to guess, how many? A couple animals, but I'm terrible with plants

## Test Observations:

Successfully put glove on and scanned an object without error or outside intervention?

Y

N

Notes: Took a few tries to realize he had to touch the marker and not just wave hand in front of it

User felt/saw appropriate feedback and answered questions about quality of feedback?

Y

N

## Post-Test Questionnaire

*Using the satisfaction scale provided, please give a response that matches how you feel about each statement.*

1. The device gives enjoyable visual feedback when an item is scanned.

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
2	1	0	1	2

2. The device gives enjoyable haptic (vibration) feedback when an item is scanned.

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
2	1	0	1	2

3. The device was easy to use.

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
2	1	0	1	2

4. With the inclusion of a display to give you more information about the item scanned (plant/animal name), this device would have educational benefit.

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
2	1	0	1	2

5. I would use this device at a park to learn more about local wildlife.

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
2	1	0	1	2

6. I feel like this device could be worn for an extended period of time (e.g. a day hike).

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
2	1	0	1	2

Additional Comments Made:

Worried about the size of the device. Thinks that something that didn't have to be worn would serve better for long-term use. Maybe something that is small like an iPod Nano. Would be cool if it could work when you are near by, instead of needing to scan it directly.
